From the Pittsburgh Dispatch, Sept. 25th, 1880. "Very seldom do we read of an actual case of recovery, where hope had alto-gether been lost, to parallel that which was Monday investigated by a Dispatch reporter, who had heard in various quarters persons talking to their friends of a cure, seemingly little short of marvelous, that had been performed. The plain facts in the case referred to, without exaggeration, are these, as they were learned from the mother of the young man, his pastor and other persons well known in the com-

"William Lincoln Curtis is the name of the young man in question. He is now employed at H. K. Porter & Co.'s locomotive works in Pittsburgh, Pa. A year ago he resided with his mother on Grant street. About that time he went to bed one evening with a violent pain in his shoulder, the result, he thought, of a cold. The next morning the shoulder was greatly swollen, the pain was intense, and aches were felt all through his system. His case was speedily developed into a violent form of chronic rheumatism,

among the first notable features of which was the paralysis of his left arm.
"He gradually grew worse, and in a few months the elbow and knee joints and both ankles became enormously enlarged. In March last the cheek bones began to enlarge, and upon his left side particularly, spreading his face out of all resemblance to his former self. The pain in all his joints became intense; fever, with its deteriorating effects, was now added, and deteriorating effects, was now added, and he became rapidly reduced to the semblanc: of a skeleton, while vitality reached its lowest possible condition, and his sufferings were of such an indiscribable tharacter that those who most loved him sometimes thought it would be better if he was called away. At this time physicians well known in Pittsburgh informed his parents that they could give no hopes of recovery.

his parents that they could give no hopes of recovery.

"The young man finally commenced taking that wonderful medicine, Peruna. In two weeks quite a change for the better, was perceptible. In six weeks all the enlargement had been reduced completely, while in spirits and strength the patient was quite a well as he had ever been in his life. Nearly three weeks ago he resumed work as a machinist at his old place, able to perform as much labor as ever in his life.

"The mother of Willie Curtis, in stating all these facts, said: 'Indeed, I can not look upon the cure much less than as a miracle. I do not heastate in sounding the praise of Peruna, and in recommending it to all my friends."

The pastor of the church where the young man attended Sabbath school was visited, and he readily confirmed the facts of the deformed bones, the emaciated condition from disease, and of the doctors having given him up. He was greatly surprised at his improved condition. Suid he, "If he had not spoken, I would not have known him."
